KEEPING OUT OF HARM'S WAY

Educational Program for five to twelve year olds

Friday 6 October
10.30am to 3pm

DON'T MESS WITH A DEVIL **Tammy Gordon**

Investigate the hunting practices, nature and habitat of our unique Tassie devils.

Follow the clues to locate the devil hidden in the museum.

Sketch, paint or mould your own little devil.

Monday 9 October
10.30am to 3pm

SNAKES ALIVE **Simon Fearn**

Become entranced by the venomous snakes of Tasmania. View real live copperheads and tiger snakes.

Make your own slippery snake using stockings and real snake skins.

Design your own snakes and ladders board game to play.

Tuesday 10 October
10.30am to 3pm

TAKING THE STING OUT OF IT **David Maynard**

Dive in and investigate some of the venomous creatures that live beneath the sea.

Identify and classify some of these ocean creatures in living and fossil form.

Craft jellyfish mobiles, stingrays and undersea gardens beds.

Wednesday 11 Oct
10.30am to 3pm

ALONG CAME A SPIDER **John Douglas**

View a dangerous spider in the flesh!

Learn how scientists classify spiders and identify new species.

Make your own delectable edible spider from liquorice and marshmallows.

Build a spooky spider's cave and crawl inside.

Friday 13 October
10.30am to 3pm

FREAKY FRIDAY **Judy Rainbird**

Small things can also sting! Uncover the mystery of bee hives and wasp's nests

Learn why bees are so important to our planet's survival.

Make your own ceramic honey pot in clay and then paint it.

Plant a flower pot with seedlings and attract some bees to your garden at home.
